Elixir Industries Residential Door Series

Curb appeal, first impressions, and perceived values are influenced by an attractive door. However, to build an attractive door, expert workmanship, high quality materials and an eye toward the finer details are needed. And it is with these values in mind that Elixir Industries builds our Residential Door Series. Excelling in many different innovations and design principles, our brick mould door, with its myriad of options, not only promote the tenets of attractiveness - but also is constructed with safety and moisture management in mind. With a Design Pressure of 50 our brick mould door is designed to protect loved ones in perilous times. Available in either steel or fiber glass, the Elixir Brick Mould Door is sure to fulfill your entry door needs.

Fiberglass Door

An innovative Cellular PVC Brick Mould Design incorporating a vinyl receiver with a nailing flange for clean and attractive visual appeal.

Vinyl Steel 6-P Door

All Composite High Dam threshold design aid in water damage protection.

ELIXIR INDUSTRIES

SINCE 1948

Premium Fiberglass Series Features:

- *Lite Opening.* No other door has this feature. Our Door has the opening for the insert molded open. This reinforces the door and provides better sealing of the window insert and greatly increases the strength of the door.
- *D.P. Rating.* Our door has the best design pressure ratings in the fiberglass door industry.
- *Composite Construction.* Constructed with LVL stiles and composite top and bottom rails, adding to door integrity and longevity.
- *CFC Free.* Insulated with CFC free high density polyurethane foam.
- *Lock Block.* 17-1/2" Lock Block for extra strength and security.

Vinyl Steel Features

- Attractive 24 ga. Vinyl Clad Steel
- DP 50
- Cellular PVC Brick Mould
- Integrated Vinyl Receiver
- Integrated Nailing Flange
- Composite Threshold
- Optional Decorative Glass Designs
- Optional 20min Fire Rating
- Energy Efficient Polyurethane Foam Injection
