Elixir Pro Line™ Galvanized Build-A-Gate Plate Kit

The *Elixir Pro Line™* Build-A-Gate plate kit is designed to be “*the easiest and best way to build a gate for a wood fence*”. The kit makes the task of building a gate easy for both the homeowner and professional installer. Typically, the most challenging aspect of a fence project is building a sturdy and reliable gate that is able to withstand the rigors of daily use. Elixir Industries is known for innovative steel solutions to meet our customer and industry needs. With those needs as parameters, Elixir has developed a solution - the *Elixir Pro Line™* Build-A-Gate plate kit. The goal of the kit is to give the homeowner and professional installer an easy and simple way to build a wooden gate that is safe, secure and durable. Provided in the kit are instructions, material list, diagrams, and all the fasteners required to build a strong, safe, and secure 42” or wider wooden gate. Contact an Elixir representative today for more information on this innovative solution.
