

ELIXIR INDUSTRIES

SINCE 1948

Elegance Plus Series

In keeping with the tradition of offering exceptional products, Elixir now offers our vinyl steel product with a wider range of decorative glass options. This series is constructed from our thickest gauge of high quality vinyl laminated galvanized steel. This door features highly efficient polyurethane insulation. The storm door is 1-1/2" thick and has an integrated drip cap and comes in three options: conventional, all glass full-view, and full-view. All three storm door options utilize a 1/8" thick tempered safety glass and is available in three colors: mill, white, and bronze.
