

ELIXIR INDUSTRIES

SINCE 1948

Power Converters

Used in the RV industry; Elixir Power Converters have proven to be clean, quiet, and powerful. We are able to provide a product that will meet or, in many cases, exceed your expectations. Our converters are Class B Certified by both ETL and the FCC.

Supplying Divisions

Div. 16
Elkhart, IN

Div. 24
Douglas, GA

Div. 25
Fitzgerald, GA

Div. 65
Waco, TX

Div. 76
Mesa, AZ

Div. 81
Tuscumbia, AL

Div. 82
Leola, PA

Corporate Offices
24800 Chrisanta Dr.
Suite 210
Mission Viejo, CA
92691
Tel: 949-860-5000
Fax: 949-860-5011

Features:

- **Automatic Shutoff:** Protects against overload.
- **Stable DC Output:** During an overload situation; this eliminates “power flicker” and saves life on appliances by maintaining a constant DC output.
- **Audible Buzzer:** Two distinct tones to clearly indicate overload or short circuit.
- **Constant Battery Charging:** A unique feature achieved by separate supply lines between DC output and battery charge. In a no-load situation, full unit amperage is diverted to battery recharge. Under a load situation, amperage diverted to battery recharge is adjusted depending on the load level, but always maintains a constant of 1 amp to extend battery life.
- **Reverse Polarity Protection:** If battery cables are connected incorrectly, a fuse in the converter will blow and protect the circuit board
- **Reduced Battery Leakage:** Delivers 8 mili-amps leakage versus 20 mili-amp leakage in competitive
- **Quiet Operation:** Fan bearing and thermal control unit provides extremely quiet operation.
