## Elixir Series 200 Manufactured Home Door

Elixir Series 200 manufactured home doors have been a staple in the manufactured housing industry for over 30 years. Series 200 doors are constructed from painted galvanized steel and then attached to a heavy-duty aluminum frame ensuring stability as well as safety and security. The folded edge blocks air, light, and water. Other features include highly energy efficient polyurethane foam insulation with high R-Values, adjustable striker plates, and both the frame and the door are dead bolt prepped. In addition, the Series 200 features weatherstripping on the door frame and door core creating a double seal. Four additional options also come with the Series 200: swivel lock bolt, a threshold, a drip cap, and a chain. Other additional hardware items such as a dead bolt and knocker-viewer are also available upon request. Series 200 doors are available in an assortment of colors, sizes, and window options.

### Painted Galvanized Steel

- Long Lasting

### Double Seal

- Folded Steel Edge with weatherstripping
- Protects against air, light, and water

### Polyurethane Foam Core

- Highly Energy Efficient

### Adjustable Striker Plates

### Swivel Bolts
